Tutoring Website

Connecting Students With Tutors

Developed by Point Park IT Students

Why The Need For The Application?

- Given the current Point Park, tutoring website does not work as expected, we saw an opportunity to create a workable more user-friendly version.
- A new system with an easy to schedule a calendar of appointments.
- A system that can notify the student of an upcoming appointments.

Our Applications Goals

- Give students an easier way to get connected with a tutor.
- Give recommendations for a student to seek tutoring for future courses based on the student's current tutoring needs.
- Able to leave notes for tutor while making an appointment.
- Able to view a list of appointments.
- Tutors able to create their schedule.
